

# Franz Anton Hoffmeister Verzeichnis (HWV)

This is the new list of the works of the composer Franz Anton Hoffmeister.

This list is built after the listing of the works actually known and conserved in the different libraries worldwide.

Many Hoffmeister's works have been printed already in the end of the 18<sup>th</sup> century.

After moving to Vienna, 1785 he created his own publishing company, the Hoffmeister Edition, one of the first music editors worldwide.

In 1800 he set up the Bureau de Musique in Lipsia, together with Ambrosius Kühnel, company that later was taken by C.F. Peters Edition.

Hoffmeister compositions were also published by many other Companies, and that helped us to draw up this list.

It is important to notice that many of these works appear under different Op. number in the different Editions.

Many other works do not appear with Op. number, or exist only as manuscripts.

Important is the case of the "Missa Solemnis", that we found in a monastery of the Czech Republic. This manuscript was written by a Czech musician and attributed to Hoffmeister. Further studies will say us more about this work.

This Opus List is drafted in the year 2018.
